Poetry has been around for thousands of years. However, we might think of the epic poem as the first instance of poetry, appearing as early as the 20th century B.C. The Epic of Gilgamesh is often cited as one of the earliest works of epic poetry. dating back to the 18th century B.C. Consisting of Sumerian poems, it is a text that was discovered through many different Babylonian tablet versions during archaeological excavations. A list of the most notable works of epic poetry would have to include the Iliad and the Odyssey, both works of Greek mythology that have been attributed to Homer. The sonnet form became best known as an English poetic form through the work of Shakespeare in the 16th century. Elizabethan poetry of the 1500s soon shifted into Restoration Poetry and a marked turn away from the sonnet. Following the reign of Queen Elizabeth I, the English Restoration period, from 1660 to 1689, saw the rise of literary elites, such as John Dryden, perhaps one of the best known names of English literary criticism, translation, drama, and poetry. The form of the mock-heroic and the use of poetic form for satire did not end with Dryden. Alexander Pope, most famous for his work The Rape of the Lock carried on Dryden's tradition of using poetry for comedic ends.

The university offers an annual keyboard skills course for all new students during the first week. The course is designed to teach touch typing to people at the beginner's level, though experienced typists wishing to improve their skills may also benefit from the program. The course is computer-based. The method encourages the use of all ten fingers for maximum speed and accuracy and focuses on the need to establish good typing habits from the start. The typing course is three courses in one. It teaches the alphabetic and numeric keyboard in eight structured lessons. Then the speed and accuracy lessons build your speed to whatever goals you choose.

Finally, the program teaches the numeric keypad in three simple lessons, particularly useful for spreadsheet work and entering data. Participants each work at their own computer and are free to undertake the course in whatever order they choose. A qualified teacher who is familiar with the program will be available at all times to explain the method and assist with any personal learning difficulties.

- 7. The course is available every year.
- **8.** Only beginners can benefit from the course.
- **9.** Students are supposed to learn how to type using one hand.
